

MARINETEK

S-SERIES PONTOONS

The **S-series Pontoons** have a unique anchoring system, which has been developed closely with Seaflex Ab of Sweden. The design is perfect for the use of the SEAFLEX mooring system and solves many problems in marina design and installation. The structure is available for all the Marinetek marina pontoon units.

MARINETEK S-SERIES WITH SEAFLEX

- *Strong and safe mooring system*
- *Easy to handle and simple to install*
- *Better stability for pontoons*
- *Keeps pontoons right in place*
- *Low corrosion and maintenance*
- *No affect for sea beds*
